DCI Data Centers appoints Ras Scollay as Senior Vice President of Business Development (Asia)

DCI Data Centers (DCI) today announced the appointment of Ras Scollay as Senior Vice President of Business Development (Asia).

With 24 years' experience in digital infrastructure, Mr Scollay has spent the last 11 years in Asia. Most recently he worked at Colt Data Center Services, where he led Sales and Marketing in Hong Kong, Singapore, Korea, Japan, and India. During that time, Colt launched two new-build hyperscale data centres near Tokyo and acquired land for further expansions in Osaka and Mumbai. Previously, Mr Scollay was the Japan Country Manager for CenturyLink, Inc., and prior to that Regional Sales Director for CenturyLink in Singapore.

Mr Scollay said: "DCI has established a reputation for high quality data centre facilities and services. The expertise of the leadership team coupled with the company's expansion plans in Asia are unique and will help our customers realise their ambitions across the region."

DCI's strategy to expand into targeted hyperscale markets is enabled by being a portfolio company of leading global alternative asset manager Brookfield Asset Management. Mr Scollay's role will be to lead the development of customer relationships and new market opportunities across Asia Pacific.

DCI Chairman and Brookfield Managing Director Udhay Mathialagan said: "I am pleased to welcome Ras to the DCI Data Centers team. Ras will be overseeing the development of customer relationships and new market opportunities across Asia. Ras brings strong skills in creating customer-focussed solutions and outcomes."

About DCI

DCI is a carrier-neutral data centre service provider. We serve cloud providers, governments, telecommunication companies and enterprise users from our own highly secure and reliable data centre facilities.

DCI is a fully owned subsidiary of Brookfield Asset Management. Its mission is to become the preferred partner in the Asia Pacific region for the delivery of highly secure data centre solutions.

About Brookfield Asset Management

Brookfield Asset Management Inc. is a leading global alternative asset manager with approximately \$550 billion in assets under management across infrastructure, real estate, renewable power, private equity and credit. Brookfield owns and operates long-life assets and businesses, many of which form the backbone of the global economy. Utilizing its global reach, operational expertise and access to large-scale capital, Brookfield offers a range of alternative investment products to investors around the world, including: public and private pension plans, endowments and foundations, sovereign wealth funds, financial institutions, insurance companies and private wealth investors. Brookfield Asset Management is listed on the New York and Toronto stock exchanges under the symbol BAM and BAM.A respectively.

Brookfield's infrastructure business owns and operates high-quality, long-life assets in the utilities, transport, energy and data infrastructure sectors across North and South America, Asia Pacific and Europe. It is listed as Brookfield Infrastructure Partners and is the flagship infrastructure company of Brookfield Asset Management. For more information, go to www.brookfield.com.
